TERMS AND CONDITIONS - HEAT PLUS

Heat Plus Rate

This heating rate applies to members with approved electric space heating equipment. The Heat Plus rate applies to electric **space heating only**, not domestic water heating. The Heat Plus rate is effective for the billing months October to May. There is currently a guarantee of rate availability through May 2015. This guarantee, however, does not fix the magnitude of the rate offered under this program.

Criteria for Heat Plus Rate:

1. This Heat Plus application form must be submitted to Linn County REC **prior** to the heat plus meter being installed and this Heat Plus rate assigned.
2. The Heat Plus meter must be installed and inspected by LCREC.
3. The primary heating system must be electric and able to provide at least 85% of the structure's heating requirements.
4. The **electric space heating** must be metered separately. (Domestic water heating **cannot** be included on this meter.) The metering design and location must be pre-approved by LCREC.
5. The primary electric heating source must operate first, with any backup system operating only when the primary system is unable to satisfy the indoor thermostat setting.
6. A Premium electric water heating system must be installed and provide 100% of the domestic water heating for the home (except for energy supplied from an electric heat pump desuperheater).
7. The space heated by the primary electric system must be an area of 400 square feet or more.
8. Must qualify and comply with Linn County REC's electric tariff on rate code 8.

Warranty Information: Linn County REC makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacturing. Linn County REC does not guarantee that a certain level of energy or cost savings will result from the use of products covered by this Incentive.

Limitation of Liability: Participating Members agree that Linn County REC's liability, in connection with this Incentive, is limited to paying the Incentive specified (when all Terms and Conditions have been satisfied by the member). Under no circumstances shall Linn County REC be liable for any consequential or incidental damages resulting from participation in this Incentive. Linn County REC will not be responsible for any tax liability that may be imposed on the Participating Member as a result of the payment of Incentives.

Participating Member's Certification: Participating Member certifies that he/she operates the equipment listed in their application at their defined location served by Linn County REC. Participating Member agrees that all information is true and that he/she has conformed to all of the requirements/criteria listed.

Changes/Termination: While this Incentive will be in effect for an indefinite period, Linn County REC reserves the right to extend, modify (this includes incentive levels) or terminate this Incentive without prior or further notice. Typically, a 60 day notice will be made in the event that any Incentive is terminated.

Other:

Linn County REC reserves the right to inspect installations before or after issuing the Incentive. If the application does not comply with Linn County REC's terms, conditions and qualifications, the Incentive amount may be adjusted or rescinded.

Members must apply for Incentives within six months of the purchase date (as shown on the member's invoice). Past eligibility, however, does not guarantee that equipment will meet criteria for current Incentives in effect.

RECAP: Check boxes below:

- I've filled in the Heat Plus form completely
- I've called Dave Gilmore at 319-377-1587 or 1-800-332-5420 to have heat plus meter installed and inspected
- I have an electric premium water heater installed (see #6 above) but **not** connected to the Heat Plus meter
